Subject: RE: ALT-152 VE certification information

Larry,

The MCAQD provided the following statement to post on your webpage.

By the authority granted in Maricopa County Air Pollution Control Regulations, Rule 200 (Permit Requirements) § 408 (Testing Procedures) and the approval granted by the EPA on August 13, 2024, the Maricopa County Air Quality Department Control Officer approves the use by the Compliance Assurance Associates, Inc. of the Virtual Opacity platform, the virtual reality (VR) headset-based alternative method for conducting Method 9 plume demonstrations and certifications as described in ALT-152.

Thank you,
Lynn
