Memo: Alignment with EPA's Determination on Alternate Test Method 152

Author: Compliance & Enforcement Program and Oil & Gas Program, Colorado Air Pollution Control Division

Date: May 20, 2025

This memo serves as formal confirmation that the Air Pollution Control Division recognizes the United States Environmental Protection Agency's (EPA) determination that Alternative Test Method 152 (ALT-152) is an approved alternative to Test Method 9 field certification. This alternative method is published in the Federal Register / Vol. 89, No. 17 / Thursday, January 25, 2024 / Notices / Table 1—APPROVED ALTERNATIVE TEST METHODS AND MODIFICATIONS TO TEST METHODS REFERENCED IN OR PUBLISHED UNDER APPENDICES IN 40 CFR PARTS 60 AND 63 POSTED BETWEEN JANUARY 2023 AND DECEMBER 2023.

The EPA Office of Air Quality Planning and Standards is the delegated authority for approval/disapproval determinations on any major alternatives to test methods and other compliance determination procedures required under 40 CFR parts 59, 60, 61, 63, and 65.

Only EPA-approved companies are eligible to provide certification using ALT-152. Copies of the federal register stating this approval and letters for certified companies are posted on the EPA website:

<https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods>.

The Air Pollution Control Division acknowledges the acceptability of Alternative Test Method 152 as an alternative to Test Method 9 field certification, as administered by EPA-approved companies.
