

COMPLIANCE ASSURANCE ASSOCIATES, INC.

HOW DO SMOKE SCHOOLS "STACK" UP?

COMPLIANCE ASSURANCE ASSOCIATES, INC. (CAA)

- Digital contact-free field certification*
- Socially-distanced, no-contact field certifications with no need for paper sign-in, clipboards, etc.
- FAST, efficient operations - up to 8 runs a day. Most schools complete in 1/2 day.
- Feedback after each test run to inform students on incorrect readings.
- Immediate certification proof and historical records online.
- Test points are digitally recorded to provide defensible certifications.
- Lecture training is offered in 3 formats.
- Field proctors at every school.
- Equipment is meticulously maintained for stable smoke.
- Dedicated regional contacts for every customer and email support for VEO questions.
- Smoke school management has consistently met the needs of clients throughout the pandemic; CAA adapted to the has not cancelled smoke schools.
- CAA management is recognized experts in opacity and have over 60 years combined experience in VEO.

*Patent Pending #17/102,637

OTHER SMOKE SCHOOLS

- Paper-based certification process; students are required to sign in and complete field certification with paper, pens, and clipboards.
- Longer set up and operations - only 2-5 runs completed per day.
- Paper certification proof is mailed days/weeks later, no online records, reissue requests can take months.
- Test run records and test point data are paper-based; paper documentation is error-prone, subject to loss, and harder to track.
- One lecture training format.
- Some smoke schools did not adapt to pandemic conditions; schools were cancelled and schedules were not updated.
- Many smoke schools have no dedicated manager assigned to clients.

THE FUTURE of TRAINING

Digital smoke schools are not only beneficial during the pandemic, they are the future of Method 9 certification.

CAA's exclusive digital technology leads the opacity industry and is unsurpassed by competitors.
